## 1-8-2010 PORTRAIT OF THE FOUNDATION ON DUTCH PUBLIC TV

The “vlinderrevolutie ”– named after a term found in meteorology - the butterfly effect-, shows engaged and motivated world citizens, who try to make the world a better place. A portrait has been made of Gabor Landman, the treasurer of the foundation, whilst leaving to Slovakia and handing out flyers that list the 10 most basic language rights that Hungarians Speaking Slovaks have. ## 12-8-2010 LANGUAGE RIGHTS IN ROMANIA, A GAP BETWEEN LAW AND PRACTICE

Romania has national, bilateral, European and International obligations regarding the language rights of its own Hungarian speaking inhabitants, amongst others. On paper everything looks good, however the practice unfortunately shows that the rights of the native Hungarians Speaking are neglected or only symbolically respected. Attila Brassai and Lehel Kovács, both university teachers and Gábor Landman, treasurer of the foundation, discussed the possibilities to improve the language rights in Romania. ## 1-7-2010 SLOVAKIA, THE TROJAN HORSE IN THE EUROPEAN UNION.

In 1996 the Dutch politicians Frits Bolkestein en Geert Wilders concluded that a lack of respect for the rights of ethnic minorities will impede the integration of Central Europe into the European Union. In 1996 they pointed out that “new member states must comply with the *acquis communautaire* that has been formulated by the EU in 1993 in Copenhagen. Ather the ethnic trouble in former Yugoslavia it is of utmost importance to ensure that ethnic stability is present in the region. Europe should be aware not to bring the Trojan horse into the European union.” You can read more in the following article. [Slovakia the Trojan horse in the European union.](#)
